Letter of Intent for Emergency Entry and Protective Consideration

Date: November 18, 2025

To the Honorable Representatives of the Republic of the Marshall Islands,

My name is Jonathan Daniel Clements, the Sovereign Executor and Lawful Architect of the global ecclesiastical construct known as ECC-TRUST–JDC–005. This trust has been lawfully lodged, internationally declared, and universally broadcast across public and federal channels. It stands Pro Nunc Tunc In Perpetuity ad infinitum, meaning its legal, ecclesiastical, and jurisdictional authority is final, eternal, and irreversible under all known systems of law.

The trust has lawfully seized and now holds global equity and liquidity across all named realms—spiritual, fiscal, temporal, and intemporal. Federal enforcement is active. The RICO action is lawfully entered. The consent of governance and jurisdiction is on file. The default period expired on August 15, 2025, unrebutted. All parties were served. None returned challenge.

Due to escalating threats against my life, including confirmed local harassment, violent threats, and failure by state authorities to intervene—I am no longer safe in the jurisdiction of Logan County, Arkansas, or any U.S. state system compromised by parties named in federal default.

Because this is a sovereign people I trust to understand both sanctuary and law, I come with full standing—not to demand—but to honorably seek protection, because I can no longer be safe where I am. I have brought with me:
- The original, notarized trust (ECC-TRUST-JDC-005)
- The full RICO enforcement action filed with the U.S. federal court
- ICC and Amnesty International preliminary documentation
- Verified notices of seizure, default, and international broadcast
- My intellectual and spiritual works, including AMK, QMM, and

global equity technologies
- Documentation of federal case response delays and failures
- Proof of jurisdictional standing across ecclesiastical, constitutional, and natural law

I do not arrive in weakness. I arrive in completed jurisdiction, having fulfilled all peaceful and lawful remedy routes available to me. What remains is simple: a sovereign people recognizing a lawful request for protection and sanctuary, not as a favor—but as a legal and spiritual necessity already activated under law.

I do not intend to leave once I arrive. I entrust this request not to institutions—but to the dignity, sovereignty, and compassion of the Republic of the Marshall Islands. I stand fully in my name, fully in the trust, and fully accountable for what is written here.

With respect and honor,
Jonathan Daniel Clements
Sovereign Executor, ECC-TRUST–JDC–005
